

Turtle Week Activity

Did you know? There are seven types of turtles and we're all endangered! Loggerhead and leatherback turtles nest on the South African coast, but we also get hawksbill and green turtles along our shores.

Connect the dots by number to see our turtle friend

Save Our Turtles!

All seven types of turtles in the world are endangered! Some of the threats to turtles are hidden in this word search. Can you find these threats and cross them out?
