My Wild Pets  Water Cycle Adventures  Wetlands not Wastelands (available from March 2019)

### Pricing:

Number of children @ R45: .....

Number of extra books @ R40: .....

### Lesson structure:

Lessons are suitable for learners 3-9 years old. Please indicate if you wish to include learners younger than 3, in order for us to make special arrangements for them.

### Duration per group: *approximately 30-55 min depending on age group*

- **Meet & greet, introduction and story time: 10-15 min** – In order to maximise learning, the children are introduced to the puppets and storyline by using the relevant story book and replica of the puppet show, but with added extras.
- **Puppet show: 15- 25min** – Follow nature-loving Beauty and Geo as they learn about living smartly, caring for the planet and a variety of animal friends such as turtles, clownfish, sea stars and sharks, some of whom are on exhibit at The Two Oceans Aquarium.
- **Lesson: 10-20 min** – During this time we reflect on the lessons learned from the puppet show by using the relevant props, as this maximises learning.

### Group size & division:

We prefer groups of no more than 60 learners at a time as this allows us and our puppets to better interact with the group.

- We can present a maximum of 5 lessons per day. If your school has more than 300 learners participating, we would prefer to visit over 2 days. Please book 2 dates, unless otherwise arranged with us.
- Please divide learners into different age groups and/or language of choice (English, Afrikaans or Xhosa), where possible. A minimum of 15 learners per group.

### Itemised Pricing for the Pricing Options:

Combo puppet show + book	R 45.00 per learner
Puppet story books	R 40.00 each
